Comment text:

Related subject: Oxshott

While the revised proposal is a material improvement on the original it still continues the approach (as at present) that Oxshott is a community that can be split for electoral purposes. The balance between the 2 proposed areas will be changed later this year once the properties within the Merrileas development (between Old Farmhouse Drive & the borough boundary) start to be occupied. If there is no solution that keeps Oxshott together while satisfying the required constraints I would be in favour of the suggested 2 councillor area.
