What are you doing ? This is a nonsense waste of time !!! Leave Oxshott alone !!! Oxshott is a small village. Why would you put any kind of electoral voting boundary down the middle of a village. This will double the decision making process of any issues which need to be resolved in the area of the boundary. I imagine this is all about trying to achieve an unrealistic ambition of 'proportional representation'. This is something you will end up going round in circles trying to achieve and end up spending so much time, energy and money in the process, instead of focusing your time, energy and money resolving the issues which effect local residents. PLEASE, focus on what's important, stop this nonsense and leave Oxshott alone !!! Thank you.
