The review is currently looking at increasing the number of councillors by one.

The information from Middlesbrough council states it should be for the area called Stanton and Thornton. I agree with the information because this area is growing with new housing developments and has a large rural area, and for one councillor to cover this area is not viable to give the residence the help and support needed from one counsellor, so the implementation of another would help give the residence the reassurance they have been listened to. Their views have been taken forward by two counsellors.
