Comment text:

I am e mailing on behalf of Babworth Parish Council to state that we are not in agreement with sharing councillors between Wards. Ranby currently has one within its ward and we would like to see this continue as we feel sharing councillors would not be conducive to getting issues within our parish addressed in a prompt efficient manner. We feel we have a great relationship with our current councillor and have done with past District Councillors . Should we have to share in the future we feel that this important relationship will be weakened.
