**Local Government Boundary
Commission for England**

**Review of
Swindon Borough Council
2024**

**Swindon Borough Council Labour Group
Submission March 2024**

Submission to the Local Government Boundary Commissions for England (LGBC), concerning the new ward boundaries for Swindon Borough Council for May 2026 onwards.

Who is the Swindon Labour Group?

The Swindon Labour Group is made up of 32 Councillors, who were elected under the Labour or Labour and Co-operative party banner. They cover 16 of the present 20 Swindon Borough Council wards and it is the largest group on the Council.

As part of this submission the Labour group consulted the wider Swindon Labour Party, this includes Labour Parish Councillors within Swindon, who collectively represent all of Swindon's urban area parishes (except St. Andrew's Parish) and Highworth Town Council.

Therefore, the submission can be seen as the Labour Party submission for the Swindon Borough Council boundary review.

How was the submission created?

The LGBC have made it clear in all its communications that, any new boundaries should be based wherever possible on existing parish council boundaries, as they often use this as their building block for any review. Our submission has sought to achieve this.

Additionally, the first part of the review determined that Swindon Borough Council should consist of 57 elected members. Swindon Borough Council also decided to abandon its present election in thirds and go for all out elections every four years.

This change allowed us to look at one, two and three members wards as the best option for a community's future representation on Swindon Borough Council.

Our first task was to split the 57 members across the parishes within the borough which created the following number of Councillors for each parish.

South Swindon = 15

Central Swindon North = 8

Haydon Wick = 6

West Swindon = 6

Statton St Margaret = 5

St. Andrew's = 4

Nythe, Eldene & Liden = 3

Wroughton = 3

Highworth, = 2

Chiseldon = 1

South Marston = 1

Wanborough = 1

Blunsdon = 1

This totals 56 and the remaining smaller parishes listed below accounting for the final seat.

Bishopstone and Hinto Parva
Castle Easton
Hannington
Inglesham
Liddington
Stanton Fitzwarren

We then used the following criteria within each parish to create wards.

The new pattern of wards should mean that each councillor represents roughly the same number of voters as elected members elsewhere in the authority

Ward patterns should – as far as possible – reflect community interests and identities and boundaries should be identifiable.

The electoral arrangements should promote effective and convenient local government and reflect the electoral cycle of the council.

Whilst seeking to remain within parish boundaries wherever possible, we recognised that there would be a need for some cross-parish border erosion to comply with the above, especially around the equality of numbers.

There would also be a need to put parishes together when creating a ward and this was especially true when looking at the rural parishes within the borough. When creating wards, we sought to apply the above criteria when bringing parishes together into one ward.

The final element was the numbers, which were based on the LGBC figures. This predicts that the future electorate for Swindon Borough Council in 2029 will be 177,732.

This means that each Councillor should represent **3105 electors**.

We then applied the 10% above and below factor, which the LGBC allows for the creation of wards, as explained on page 7 of their guidance ***“How to propose a pattern of wards”***.

This means that the following range can be considered when looking at the creation of wards

1 Member 2795 – 3415
2 Member 5589 – 6831
3 Member 8384 – 10246

The Submissions

The Swindon Labour group submission creates 25 wards using 1, 2 & 3 members wards to create the 57 member Swindon Borough Council.

Our submission will see

4 – 1 Member Wards

10 – 2 Member Wards

11 – 3 Member Wards

By using all three options we have created wards that mostly fit within parish boundaries and creates wards within those parishes that reflect the communities that make up the parish.

Below, each ward is set out using the existing Swindon Borough Council polling districts as reference. Along with the ward figures, there is an explanation of why the ward has been created and also a map for reference.

Supporting this submission is a spreadsheet detailing all 25 wards and a PDF containing a larger version of each map.

Ward Names

When creating these new wards we used numbers rather than names, so we could concentrate on what makes up an individual ward and not what it was called. To complete the submission we have now added names. Whilst we believe that our ward boundaries are the right way forward for Swindon, we are more than happy for alternative names to be given to our wards, if a more appropriate suggestion is made.

A good example of this would be the Ferndale Rodbourne ward, which could easily be renamed after the old Western ward, as it very much mirrors that previous ward.

Conclusion

The Swindon Labour Group submission has created new Swindon Borough Council ward boundaries that ensures:

Each local councillor represents a similar number of voters.

Each ward reflects the identity and interests of the local communities that make up the ward.

Each ward is within the electoral numbers range, thus ensuring that Swindon electorate is evenly balanced between its 57 members.

The ward patterns are compatible with the new all-out election, every four year electoral cycle.

These new wards have been created with primary consideration of the local parishes within the borough and then the communities within these parishes. The new wards create electoral areas that have strong community links, whether they be geographical / connectivity; social; economic or day to day issues like traffic. This will allow its elected members to bring a strong and cohesive voice to the borough council when representing these communities / wards.

Gorse Hill & Pinehurst Ward (2 Members)

This ward is based on the present Gorse Hill and Pinehurst ward and is made up of the Gorse Hill community which is orientated around the Cricklade Road shopping area and St. Barnabas church. The rest of the ward is the Pinehurst community feeding off of the Circle and Pinehurst Road. These are two well established communities and have been part of a single ward for many years.

The removal of the D1 element is that The Bungalows and Doris Archer Court, which are located off of Beech Avenue, mostly in the Rodbourne Cheney boundary, so it makes sense to add these to Rodbourne Cheney ward.

The streets included in the D3 area are located at the far end of one of the Gorse Hill polling districts (GPB) and are made up of the area that is cut off from the rest of the Gorse Hill area by the bus gate. Along with this, many of the children from this part also attend Ferndale School which is in the Ferndale and Rodbourne ward. Therefore, it makes sense to move these streets into the Rodbourne and Ferndale ward.

Rodbourne Cheney Ward (2 Members)

Rodbourne Cheney is a well established community and incorporates St. Mary's church on Cheney Manor Road, the shopping area and Rodbourne Cheney School both on Moredon Road. The RCC polling district includes Mulberry Grove and Beech Avenue, as well as part of Pinehurst however, most residents in this area considered themselves as part of Rodbourne Cheney, which has been evidenced at previous boundary reviews.

The Moredon element of the ward is interlinked with Rodbourne Cheney through the local working men's club, church, library and scout group, all based on Moredon Road. The children from both communities mostly attend Nova Hreod school.

The inclusion of the GHF polling district reflects the area's wish not to be included within the Gorse Hill and Pinehurst ward. The area has not been included in any of the Haydon Wick Parish wards as that polling district is an island, with no road access to the rest of the parish therefore, residents would have to go through the Rodbourne Cheney ward (on this submission or any other that is predominantly based on parish boundaries). The area also creates a good link with the Crossways Avenue area and the part of PSB polling district that is included in this proposal.

Haydon Wick Ward (2 Members)

Haydon Wick parish is of a size that allows it to have six seats on the post 2026 Swindon Borough Council and this submission has split the parish into three, two-member wards.

The first is the new Haydon Wick ward which mostly comprises of the traditional part of Haydon Wick, the old village area and Greenmeadow as well as taking in the south east part of the parish. This part of the parish has been established much longer than the new northern and western sectors and fits well with the Haydon Wick and Greenmeadow areas.

This ward also has a strong connecting corridor from Thames Avenue, through Haydonleigh Drive to Purton Road. This offers good connectivity as well as encompassing the local secondary school (Nova Hreed) catchment area.

Mouldon Hill Ward (2 Member)

The final ward for the Haydon Wick parish covers the western area, to the north and opposite Mouldon Hill Country Park. Its two principle areas would be firstly the community around Queen Elizabeth Drive and the St. Francis Church of England Primary school and secondly, the north western part around the Oakhurst Community Primary school. The two communities, whilst on either side of Thamesdown Drive, share links through the Taw Hill Medical Practice and local pub as well as both being neighbours to the country park.

St. Andrews Parish Wards

Tadpole Farm

Ward Eight (1)

St Andrews SAA

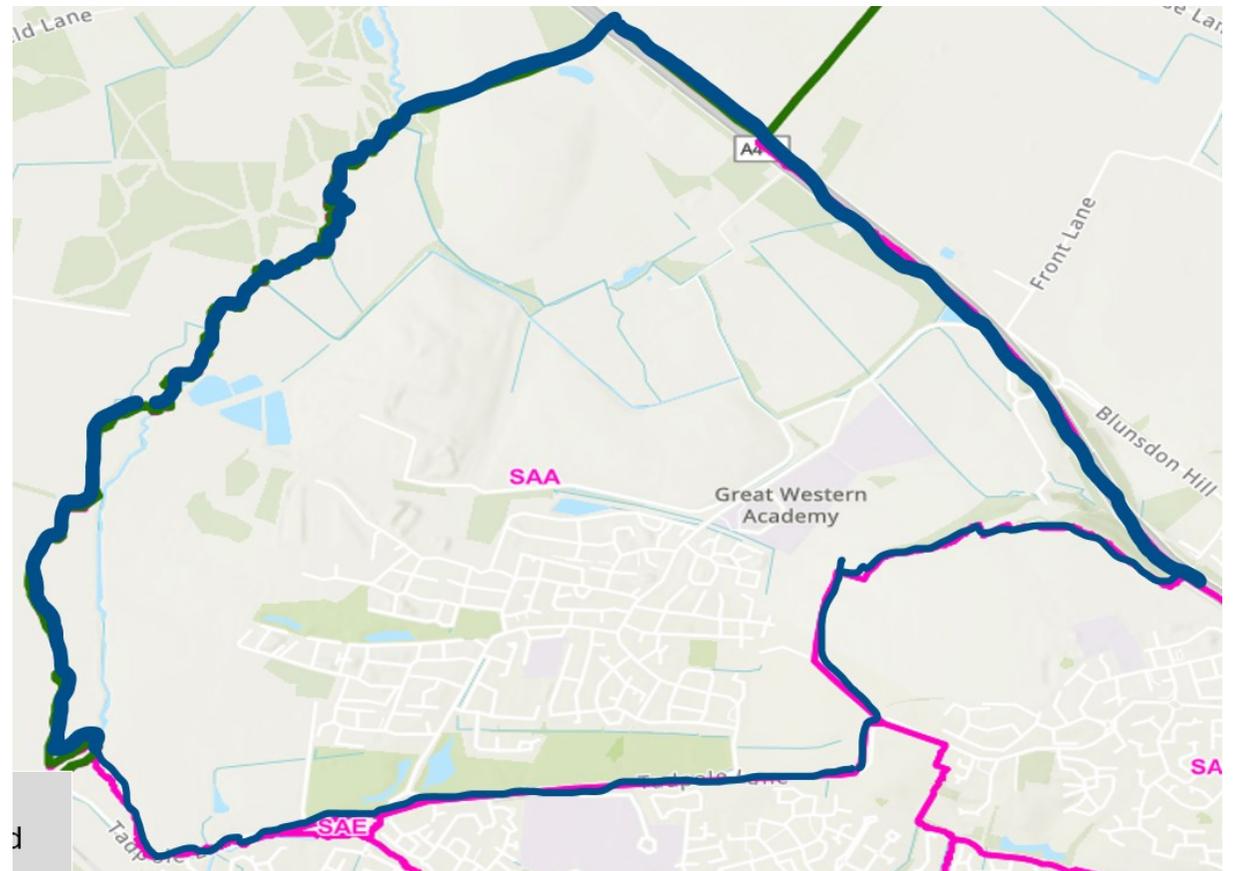

3049

Ward 8 Total

3049

Tadpole Farm Ward (1 Member)

The Tadpole Farm development is the newest part of the St. Andrews parish and has its own distinct location and community within the parish and is ideally suited to have its own single member ward.

Lawn & Badbury Park Ward (2 Members)

This ward is made up of the urban part of the present Chiseldon and Lawn ward and Badbury Park and the Lawns. The former being a new development close to the Great western Hospital and the latter a well-established community between Marlborough Road and Queens Drive. Both communities are well linked via Marlborough Road and Coate Water Country Park sits in the middle of the ward.

Included in the ward is RWE which is present in the Ridgeway ward but is part of the South Swindon parish, like the rest of the ward. Also included is the OTD polling district which is a natural extension to the Lawns part of the ward as it covers the housing either side of Marlborough Road, up to the point where Old Town starts. The remaining part of the polling district (D9), which is the area between the High Street and the Lawns green open space, is to be retained within the Old Town ward as it forms part of the Old Town shopping and leisure and is recognised as a distinct part of Old Town area. The Lawns green open space will now also sit within this ward's boundaries.

D9 Total 475

Old Town Ward (3 Members)

Old Town is a well-recognised area within Swindon, both in residential and shopping/leisure terms. This new Old Town ward, seeks to replicate this by adding the ETC polling district of Eastcott ward, which includes the Victoria Road shopping area and the residential area to the north of Bath Road which comprises a community that considers itself to be in Old Town. The inclusion of the area covered by D9, further strengthens the Old Town focus of this ward. The remaining part of the ward is the Croft Road area, which is also viewed by many, as part of Old Town and the East Wichelstowe area, which is also accessed via Croft Road.

Town Centre

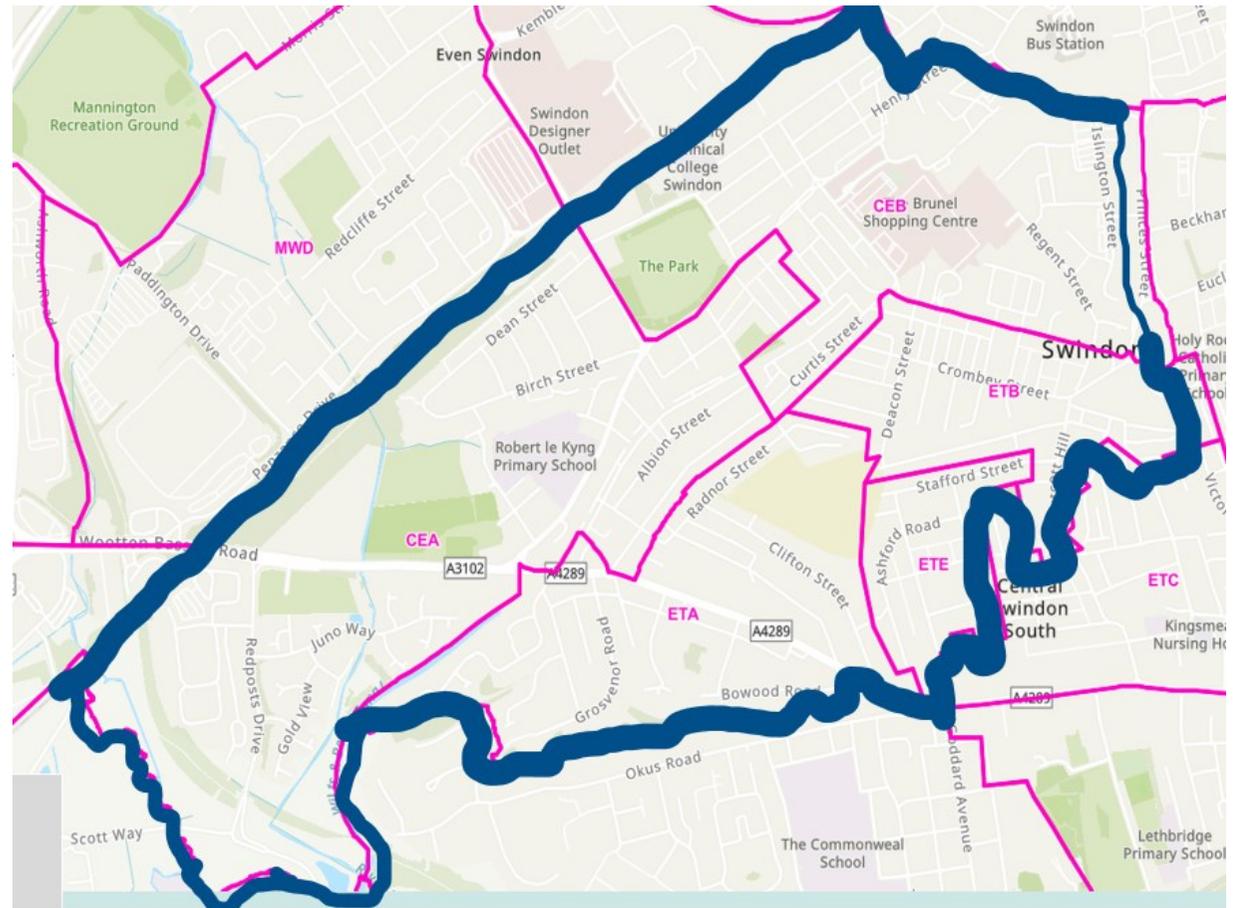

Ward Eighteen (3)

Eastcott ETA	1724
Eastcott ETB	1575
Eastcott ETE	751
Central CEA	2414
Central CEB	2199

Ward 18 Total 8663

Town Centre Ward (3 Members)

This ward covers the area which is considered as the centre of Swindon and at its core is the town centre commercial district, which is part of the CEB polling district, with the CEA and ETB abutting onto this area, forming the residential zone of the town centre. The ward would also be made up of two further polling districts from the former Eastcott ward. ETE, which is just to the north of ETB and ETA, which is to the north of CEA and west of ETB. The streets in these three polling districts are intertwined. Therefore, they sit comfortably together, geographically as well as from community and connectivity perspectives. Additionally, most residents in these polling district wards consider themselves to be town centre residents.

Broad Green

Ward Nineteen (2)

Central CEC	5374
Plus D10 (Part)	457

D10

Princess Street	23
Beckhampton Street	255
Newcastle Street	179

D10

Princess Street	23
Beckhampton Street	255
Newcastle Street	179

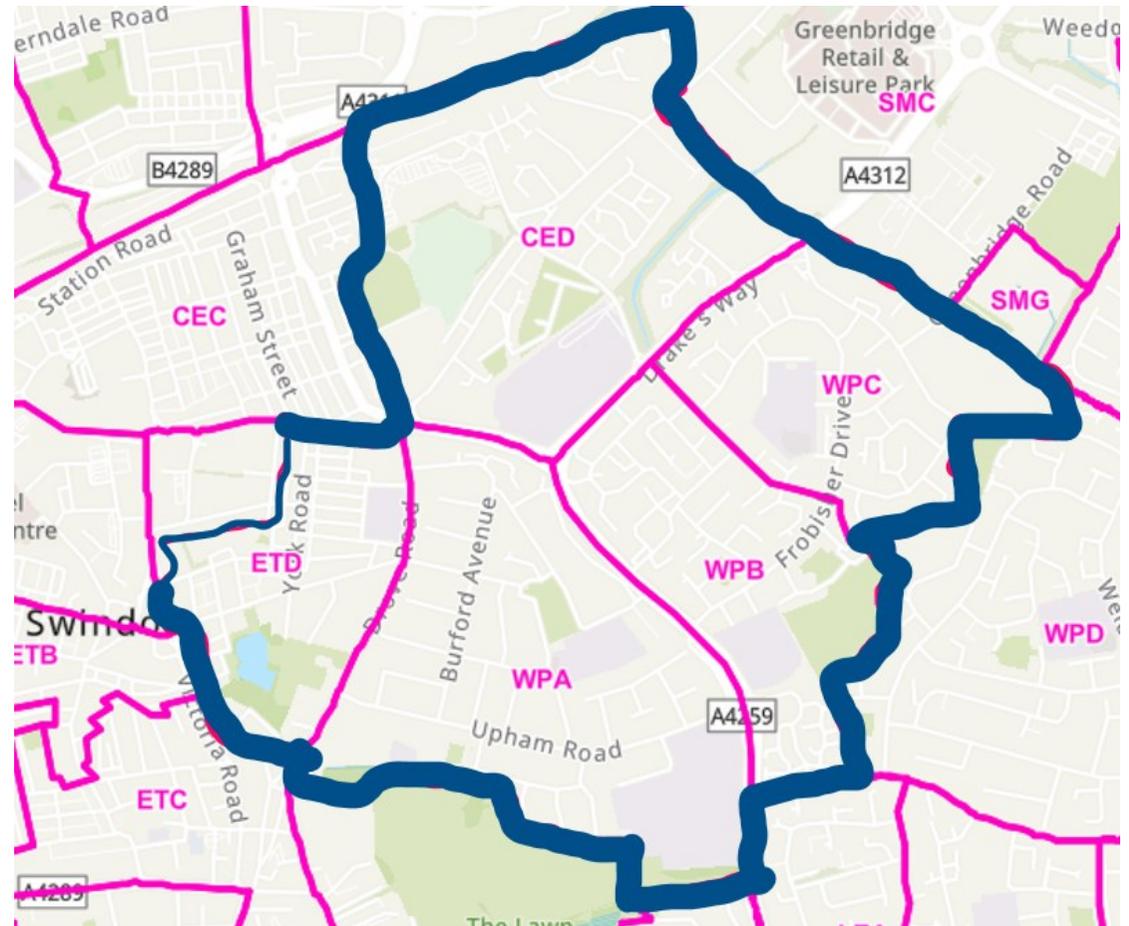

D10 Total **457**

Walcot Ward (3 Members)

The Walcot ward is made up of Walcot West (WPA) and Walcot East (WPB & WPC). These two areas are distinctly different, with the West mostly comprising semi-detached private dwellings and the East made up of a council estate built in the 1950 to house the London overspill. They have however, traditionally been served by the same set of Councillors and this submission sees no argument for that to change post 2026.

The other part of the ward is the area either side of Groundwell Road (ETD), which has good links with the Walcot West part of the ward. The same can be said for the CED polling that has also been added to the ward, which over the last few boundary reviews has floated between a Central and Walcot ward.

One key shared element for all parts of this new ward is the Magic Roundabout, which locates four of five exit routes. They also share the challenges faced on match days from County Ground, the home of Swindon Town FC.

Parks

Ward Twenty Two (2)

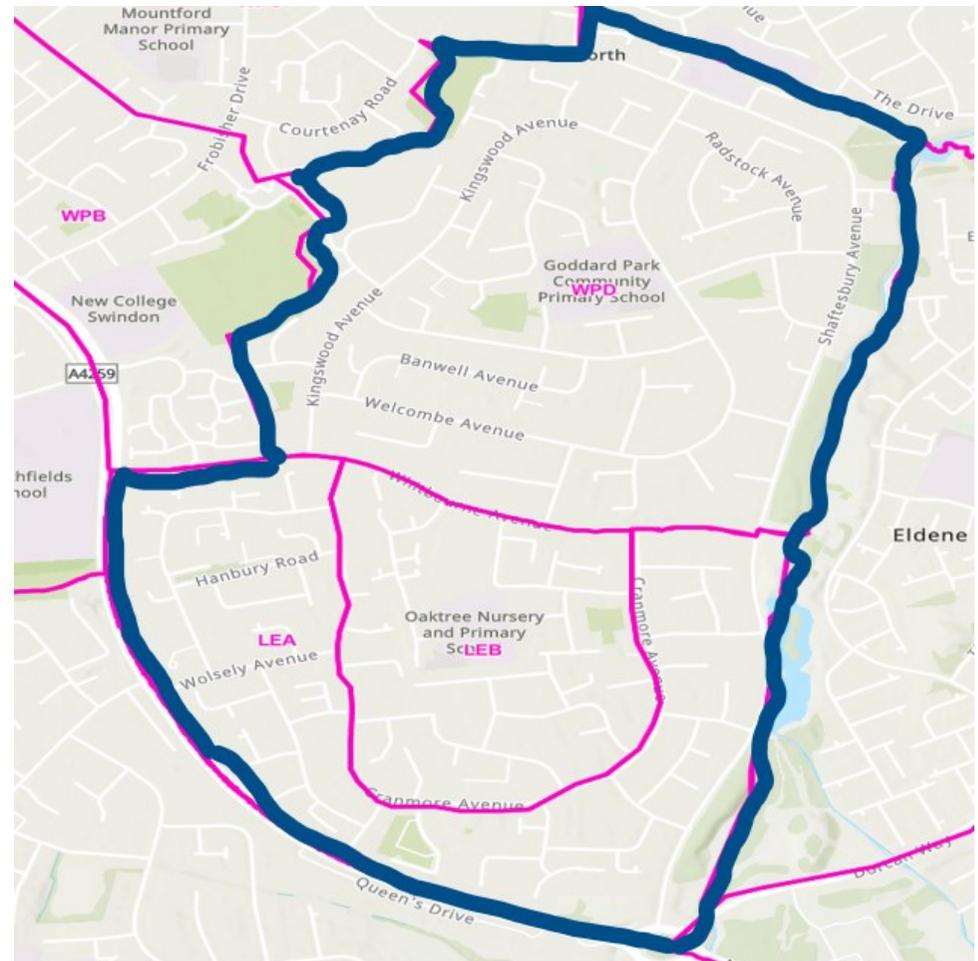

Walcot & Park North WPD	3325
Park South LEA	2151
Park South LEB	1347

Ward 22 Total

6823

Parks Ward (2 Members)

The Parks area of Swindon is made up of Park North and Park South and like Walcot was established in the 1950 for the London overspill. The area has its own shopping area in Cavendish Square and two primary schools supporting the area. Those who live on the estate recognise themselves as living in either Parks and the ward would re-enforce this strong community identity.

West Swindon Parish Wards

Lydiard Park

Ward Twenty Three (3)

Grange Park LFA	1471
Grange Park LFB	1765
Freshbrook LFC	1471
Toothill LFD	1608
Freshbrook LFE	1773
Toothill MWC	1739

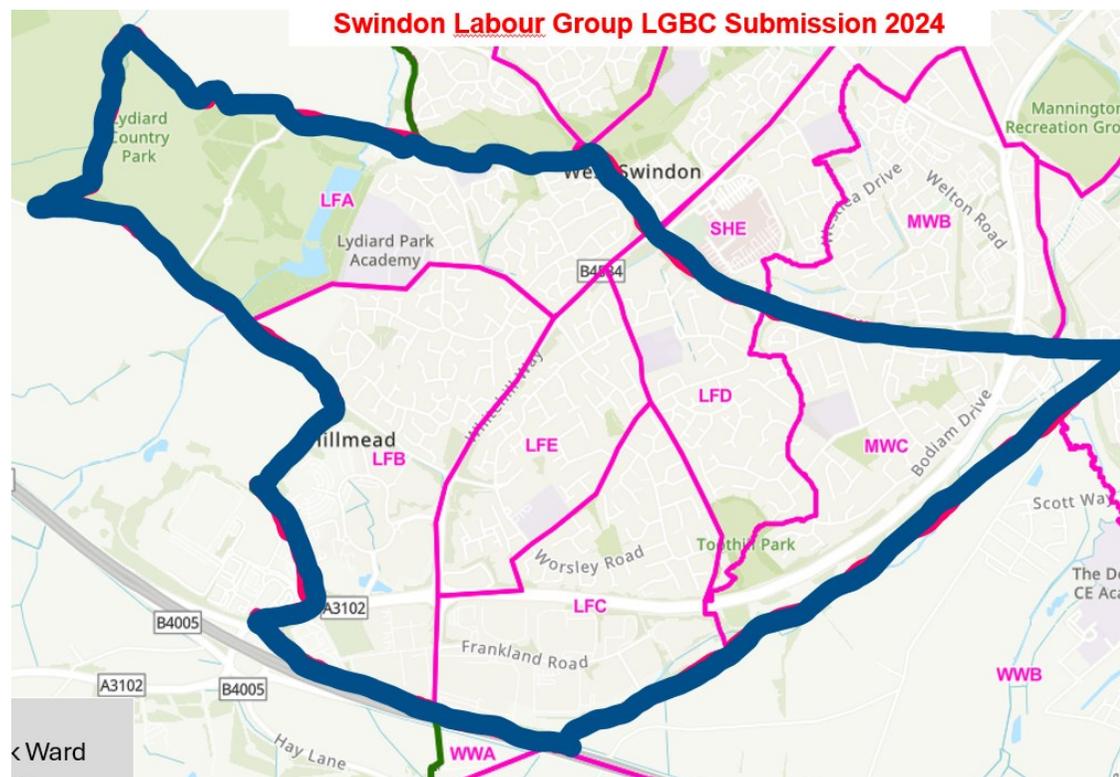

Ward 23 Total

9827

Lydiard Park Ward (3 Members)

Based on the figures West Swindon parish should have 6 Swindon Borough Councillors and the parish can easily be split into two three-member wards. We have used South West and North East of Tewkesbury Way as the dividing line for the parish. The reason for this is that it is a clear dividing line and also puts together communities within West Swindon that have most association.

The Lydiard Park Ward would combine Toothill and Freshbrook, which are the original two communities of West Swindon as well as Grange Park that butts onto Lydiard Park & House, bought by Swindon Borough Council in 1943 and a much loved part of Swindon's leisure offer. Whilst all of West Swindon main shopping facilities are based at the West Swindon District Centre, additional small shopping and leisure areas exist. The one by the Freshbrook Community Centre offers these services to the south western end of the parish, including parts of Grange Park.

Mead Way

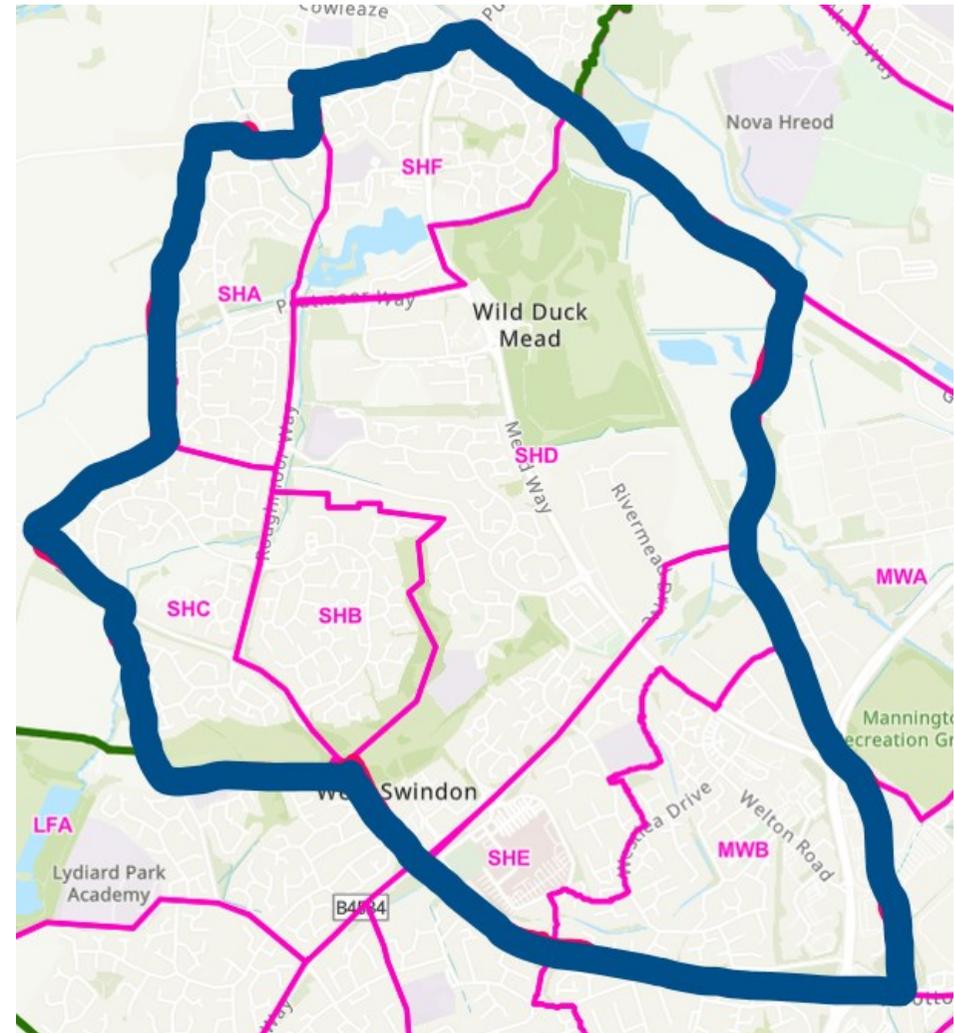

Ward Twenty Four (3)

Peatmoor & Sparcells SHA	1420
Middleaze & Ramleaze SHB	1322
Middleaze & Ramleaze SHC	1638
Eastleaze & Shaw SHD	1877
Westlea SHE	631
Peatmoor & Sparcells SHF	1103
Westlea MWB	1562

Ward 24 Total 9553

Mead Way (3 Members)

This ward covers the North Eastern side of parish and includes Westlea, Middleleaze, Nine Elms, Shaw which follow on from each other on the Western side of Mead Way culminating in Peatmoor and Sparecells either side of the end of Mead Way. These parts of West Swindon were mostly built around the same time, so have similar housing stock and general community layouts, which makes them complementary when looking to create a second ward the West Swindon parish.
