Comment text:

Related subject: Traffic issues and Geo-Engineering

I am totally against 20 mile an hour zones unless they are outside schools

Also strongly disagree with the push for electric vehicles and the push on expensive coercion towards heat pumps in homes that have very competent heating systems.

All this ridiculous coercion is all about money and nothing to do with climate change

We are all on to it, no one believes the CON!

Leave out weather alone!

We do not need Cloud Seeding!

We are not a country who does not have enough rain

ENOUGH ALREADY!!!
