Related subject: Parish and local council

I have totally given up on my local Chiseldon Parish Council , communication are ignored and lacks urgency to anything important to local residents, eg the New Road cut out has been a total hazard since put in place 7 / 8 years ago creating such a risk as we at Canney Close pull in/out on a daily basis , no one seems to listen , I attended a meeting once at Chiseldon House and raised my concerns to be told it was a 6 month test - still here , still a huge problem, still no one listens .

In Chiseldon we have had many floods last 6 months and no doubt there is a major issue with drains on Canney Close , the local councillor or parish have not helped we have had to escalate to Robert Buckland to attempt to get it resolved plus Gary Sumner from a different area has helped enormously yet silence from local councillors and no presence or communication.

I feel local councillors are faffing around with non important issues or ideas of their own yet missing the big important local issues residents have , no one local seems to listen or take on board local residents views only their own .

Is it right a whole street of residents are awake at night hoping the rain stops so their homes don't flood including people in their 80s / 90s

Is it right that to pull out of Canney Close for years we as residents have to risk ourselves due to people speeding to get through the cut through first or not give way , we have residents afraid to drive now so not to encounter the HGVs and diverted M4 traffic as well as daily risk pulling out its not needed and should have been removed years ago ! Now the cut out is overgrown , full of road grim and no lights - yet another accident

awaiting to happen yet no one listens ?

Mr Robert Buckland & Mr Gary Sumner have been incredible in their support and help and response it's such a shame we don't see or hear or get a reply from anyone else unless it's election time .
