Comment text:

As a 62 year old Rytonian and a resident I wish to strongly object to the proposed boundary changes to Barmoor.

For the following reasons.

- . Lack of notification from Gateshead council.

- . Historically Ryton and Barmoor, also known as west Ryton, have no affiliations to Crawcrook

They have different local identities ranging from separate football club's, working men clubs and church communities.

Gateshead councillors have admitted that it is purely a number crunching exercise.

I urge you to consult closely with the 2 communities, something that Gateshead have not, look closely at the historical ties.

There are other options available, notably changing the Stella riverside boundary as this is a newer community or Stella Hall estate who historically have an affiliation with Blaydon.

Can I please be updated on the proposals via this email
