Comment text:

Gateshead's submission to the boundary commission was submitted on 30th October 2023 and states that it was developed using the local knowledge of the elected councillors. As far as I know none of the local councillors have consulted those residents affected by the changes or even notified us of the proposals.

Barmoor has always been part of Ryton. This proposal divides Barmoor.

Will this affect local groups, catchment areas and house prices?

Consultation must be had with residents in order to determine their views and allow the council to explain their position.
