Related subject: Ryton

You have removed parts of Barmoor and Ryton to sit within Crawcrook and Greenside Ward. The boundary and village markers for Ryton are to the west of the proposed new ward lines. There is a clear area of grass land separating Ryton and Crawcrook. Barmoor is part of Ryton village, not Crawcrook.

The area around Barmoor deals with a lot of school traffic for all 3 schools - Ryton Infants, Ryton Juniors (both part of Ryton Federation) and Thorp Academy. There is a regular communication between local residents, local councillors and the schools to support/ work with the local area. The local residents would no longer be represented by the local councillors that sit as LA reps on the governing bodies of the school to be able to raise/voice concerns and propose solutions for issues regarding living so close to Ryton schools can sometimes bring.

The current boundary line changes would mean that the building used for elections for Ryton residents would actually be within the Crawcrook Ward!

We disagree with the boundary line changes.
