## Comment text:

I attended a hastily convened meeting last night in Ryton to discuss moving my address from Ryton ward to Crawcrook. It was a very heated meeting as the Council who are very good at pushing their literature through the door hadn't mentioned this at all.

Although I sometimes shop in Crawcrook and use the Library I am a Rytonian through and through. I was born here, I work for our community group Brighten Ryton as do a few of my neighbours. It may sound ridiculous to some but we would like to stay as Ryton Ward . If we hadn't recently had a huge new housing project we would still be within the desired number crunching.

So we implore you leave us where we are please.

Regards
