## Comment text:

**Related subject:** Ryton

I, like so many other residents that live in Ryton and the other areas that are being proposed to being moved into the Crawcrook ward find it totally unacceptable.

The proposal seems to be for one thing only and that would be to change boundaries that would allow land to be used for more housing.

Residents living in Ryton and the other areas that would be affected by this proposal are totally against more housing developments taking place in and around the area of Ryton.

There seems to be no benefit to the residents of the areas being earmarked for the move to the Crawcrook ward and the reasons given by Gateshead Council simply do not justify what it is proposing.
