## Comment text:

**Related subject:** Barmoor Ryton

Without consultation this change to the boundary is nothing more than a number crunching exercise. It does not take into account the historical and cultural importance of the residents who live within this area. My home and Community can be dated back to 1863  
And it is not right to be expelled from your cultural past because of a voting system which requires 300 residents to move. It is unfair to be moved at the expense of a new housing estate which is still being constructed for people who have never had any connection with the Area. Remember what happened to Byker in Newcastle when they built the Byker Wall.IT DESTROYED THE COMMUNITY SPIRIT. This will happen to Barmoor at the expense of in comers.

Also how can you take out half of Barmoor and leave the other in Ryton. This is wrong

Also I will give up my right to vote in protest of this change as I feel I have no connections with crawcrook Ward

Please note even on Gateshead draft proposal they state Ryton is east of crawcrook as it has been for a thousand years
