**Related subject:** Moving barmoor from ryton to crawcrook

I disagree with the proposal to move barmoor from ryton to crawcrook. We have such an amazing community in barmoor and its links with ryton - ye olde cross pub, Brighten ryton, barmoor hub. Historically barmoor has been part of ryton and it makes absolutely no sense to remove it whilst keeping Stella new estate in ryton. It feels like you're moving the historical old houses out to make way for the new, dividing communities and identity. Stella new estate is so far away from the centre of ryton. Barmoor is in the centre - we're next door to ryton schools, ryton rugby club, ryton cricket club. I love living in ryton, I don't live in crawcrook! I had no idea that this was being proposed until a neighbour informed me on Monday, how have you kept this a secret for all of these months without contacting the residents so they have a chance to voice their opinions. I do believe that you would not have the same level of complaints from another affected area - this is such a mistake!
