## Comment text:

**Related subject:** Barmoor

please can you explain why the Barmoor boundary should be hacked out from the Ryton boundary which leaves a chunk of land protruding into the Ryton boundary. Surly this is a joke as I know it is April the first. It is in bad taste. I will object to this foolish proposal. I live in Thorpe cottages which were the original part of the Ryton Emma Pit since 1863 so historically part of Ryton. Please can you also give the reason why you think this strange little chunk of land should be expelled from its historic standing in Ryton.
