## Comment text:

**Related subject:** Winlaton

Winlaton is a village in itself, therefore I'm unsure as to why the Winlaton area needs to be divided further in the suggested boundaries. To join part within Blaydon and part within High Spen just appears to be splitting up the Village and the Community. Much has been developed within our community which had been a necessity during Covid. The " Village" responded and reacted well to support each other during the difficult times. Bleach Green as it has grown and stretches through onto Blaydon Bank perhaps would serve better to be part of Blaydon rather than Florence St and Alice, Clara etc which like Eastlands and Calafornia are very much part of Winlaton Village.

A road which divides Winlaton by about a mile takes you to cross roads top of Barlow ( Ashtree Lane) which is closer to High Spen than Winlaton. Would moving the Winlaton streets mentioned back into Winlaton boundary not balance the figures if Bleach Green moved to Blaydon?

Winlaton is a very independently thinking village, it would be so good if a Councillor lived in Winlaton held their own surgeries. This way the community may feel any issues in the ward may be felt and understood.
