## Comment text:

I was surprised to be told that Barmoor is to be moved from Ryton to the Crawcrook ward without any consultation with the residents affected. I found out through a note through my door, not through the council or their representatives. I am already concerned about the number of houses being added in this area, without consideration of impact on infrastructure, schools, doctors and dentists. What does this change mean for the residents of Barmoor? Why weren't they brought along on this journey, or consulted as part of the process? It does feel like residents really dont matter to this council.
