**Related subject:** Homer Green, Manor Ward

I'm not sure you are considering the following views in this review, but I thought I best offer them them just in case:

Homer Green is located between Lunt and Ince Blundell, but it is in the Thornton Parish. My view is that it should be linked to either Ince Blundell or Lunt area wards.

Homer Green is considered a rural area and has little in common with the Thornton Urban area and as consequence decisions taken often have no relevance to Homer Green. It is rare that we feature in any important decisions taken by council and parish bodies that impact this area.

Homer Green is some distance from the area of Thornton which often causes confusion and a strong sense that we are somewhat tagged on and very much overlooked.

This is not a reflection on our current councillor, who is very good, just the view that this area would be better placed in a closer neighbouring ward.
