## Comment text:

I am a resident of Bell Heath, we have lived here for 16 years and have been part of the Belbroughton community for the entire time. All of our children attended Belbroughton primary school and then went on to Haybridge high school in Hagley. we are essentially an extension of the Village and the thought of that changing is truly devastating. Our whole lives are based around this community and in particular the village centre, we regularly use our local Village Drs surgery for day to day and some more complex needs and have direct family (my twin sister) who live in the village and form part of our day-to-day lives. Please do not change this perfect relationship and spoil peoples lives in the process..
