I understand there is a proposal to change the historical boundary of our community.

I am somewhat aggrieved that this consideration was likely to be implemented without consultation of the residents. Thankfully due to the passionate connections held by my neighbours within the area/village of Belbroughton the proposal has been made public, as it should have been via proper channels!

We all live with a community spirit bonded by our love of our village and its; Schools, Doctors, recreational sporting club, working mens club, Clent club, public houses etc., etc! To suggest a change and merge with a totally unrelated area without due consultation is an absolute outrage. In times when community spirit in many areas is seen to be in decline, moves such as this, undermine the very fabric of society!

I sincerely trust this abhorrent plan is withdrawn and any such future plan is properly presented for open consultation by all those likely to be affected!
