## Comment text:

**Related subject:** Belbroughton Clent Parish boundary

I chose to move into this area for the safety and close community aspects.

I use Belbroughton doctors, shops, community services and the social club. I have built a very strong circle of close friends and associates in the local community and join in all aspects of the village life. I have never used Fairfield nor Catshill and have no connection with anyone or anything there. I vote in Belbroughton and work closely within the Hagley area as well. I disagree with all my heart the changing of the boundary for this area and as this has been the same community for hundreds of years and worked very well it should not be changed purely on the case of electorate.

The Hagley schools are undersubscribed at present however the Bromsgrove schools are full so even on the education level this does not make sense.

If it's not broke then don't fix it.
