## Comment text:

**Related subject:** Belbroughton

My mother has lived in The Gutter from the age of 21, she is now 86 and still living here next door to me. I was born here, we have always had very close links to everyone in Belbroughton, being a part of the village is very important to my mother. She is very upset at the thought of that changing. She has life long friends that she sees regularly at church. Our family, including my father are buried at Belbroughton church and our son attended Belbroughton school and was christened at the Belbroughton church. Our family, my grandchildren would like to continue to be a part of Belbroughton and the thought of that not being possible because someone decides our boundary is not within Belbroughton anymore is devastating for us all.
