**Related subject:** Belbroughton

I brought a house in the Belbroughton area.  
Since moving in 17 years ago houses have been built and it looks like they are getting priority over the people that have been local for years.  
I am a member of the local clubs and use the facilities that Belbroughton offer.  
My children went to the local schools and now you want them to travel outside of the area to other schools.  
My Doctors are Belbroughton. I vote in Belbroughton.  
If I had wanted to live in Woodvale I would have brought a house there which are cheaper because of the area.  
I moved here to be part of a rural village which it still is my house hasn't moved.  
I understand you are trying to balance numbers but the people that are moving into new estates should be the ones that have to travel not the older residents.
