## Comment text:

**Related subject:** New divisions in Worcestershire

I wish to strongly object and disagree to the planned changes of boundary around bell heath area and change from belbroughton to woodvale. As a resident of Bell heath, who's name along with bell end are synonymous with the history and legacy of being part of belbroughton and its community. We already have the division from the village from the dual carriageway, however remain a strong connection with people, church, schools and services including post office, and doctors within the village. Being part of the community for events and social is important, and provides a important community cohesion, evident especially in recent Covid times. I can not see any benefit for a change in boundary, and also strongly object that this consultation was not shared or published until two weeks ago, significantly after the advertised start of consultation.
