I would like to raise my strongest opposition to the proposal to change our boundary lines from Bejbroughton to Woodvale (a place I have never heard of, although it is supposedly on our doorstep). I am 18 years old and my life is and has always been in Bell Heath and Belbroughton we are two areas but operate as one. I went to school at Belbroughton primary school and my whole life has been as part of Belbroughton Village, my friends are all in the village, my doctor is in the village and the places I socialise are also all in the village. The proposal to separate us is ridiculous and I would urge you to reconsider and stop playing with our lives.
