## Comment text:

I am sending this email as a new member of the Bell Heath/Belbroughton community, I moved here, 18 months ago having spent many years growing up with family that live in Bell Heath. The beauty of this community, and the reason I desperately wanted to come here was it's very sense of community and I must stress how I have seen peoples devastation and anger over recent weeks. since we found out you were proposing to change our boundaries. Please do not mess up a very special place that I am lucky enough to call home, there are very few places left in England that have such strong ties and sense of belonging.
