## Comment text:

**Related subject:** Belbroughton

I am against the changes of the Belbroughton area as I believe this is my boundary as my children go to school there and we also have our medical records with the local GP , I have bad anxiety and and changes of circumstances can make me worse , the change of these boundary lines will separate me from my social life as I am involved with clubs with in the boundary and I feel any changes won't help with my mental health
