18th March 2024

For the attention of the Review Officer(Worcestershire)  
The Local Government Boundary Commission for England,  
Dear Sirs,

My wife sent our email response a while ago. I now want to respond further myself. I have to use my wife's email address as I do not have a computer myself to have one. I am now over 80 and still enjoy this area which we moved to over 20 years ago.

The area has a strong sense of community working together to strive to maintain the character of the area. One thing that helps us to do this is the division which we belong to. In the Clent Hills division our Worcestershire County Council councillors help to provide effective and convenient local government as they strive to discharge WCCs responsibilities effectively. Together with the rest of the Clent Hills division area the needs of its rural electorate's community are well met. I believe this would not be the case if we were forced to moved into the Woodvale division much closer to the urban area of Catshill within the town of Bromsgrove.

I object to the proposed change in our county council division .

Sincerely,

[REDACTED]
