Related subject: Trimdon

Looking at the new proposal for ward boundaries I can see that you have used the A174 as a boundary line. As an owner of a property on Stainsby Hall Farm I believe I have never had any affiliation with Trimdon. In all the years I have lived here I have only had contact with one councillor who has sadly retired now. We have no connection to Trimdon and I believe we should be part of the Stainton and Thornton ward. The access/ egress to public roads is only viable by Low Lane. The nearest shopping facilities have to be accessed by our lane onto Low Lane. Since the building of the new estate on Brookfield our outlook has drastically changed from open views to houses overlooking my property enclosed in basic wooden fences. People now turn up on my property asking for Farmstead St. Things like the postcode TS17 is highly confusing as it is a Stockton postcode. We receive no local council news due to this. All we receive is Stockton information, so local ward news is never posted to my property.
