## Comment text:

**Related subject:** Hemlington grange way/Stainton and Thornton

Our area is currently linked with the Stainton and Thornton Parish/district. With respects to the council reviewing the current boundaries I think it is paramount our area stays linked to Stainton and Thornton. Both areas are just along from another meaning we share alot of the greenland around which i know is up for consultation also. I think together Stainton and Hemlington grange way are able to come together to enable the preservation of green spaces and lands that we share between ourselves. I also know a large number of the public living in Hemlington grange way visit buisness in Stainton such as Coffee mornings in Stainton inn or the Postoffice meaning a shared interest in keeping stainton businesses thriving.
