Council too willing to GIVE away money to NONE essential services and or groups then FAIL to provide the service they TAX the people for the council FAIL to maintain the roads surfaces the Council FAIL to ensure the gulley's and drains are clean and cleared leading to flooding too name two things the council Fail to do and their excuse they have to prioritise what they spend money on ..so providing money for LGBT and ethnic groups for example is more of a priority than the roads ...
But as long as the councilors get their money as long as councilors can have their junkets it ok that the people of Middlesbrough can put up with substandard services from Middlesbrough council .
