My Council Tax went up £15 per month last year and is going up another £10 per month this year, and if I want my brown bin collected it will be an additional £6.67 per month. I cannot afford this increase! That is an unacceptable rise considering you are reducing our bin collection services to every other week. The green bins need to be collected weekly for hygiene reasons alone!

Thousands of new homes are going up therefore more Council Tax is being paid, where is this money going? You need to rethink the ridiculous salaries of some of your Senior staff. Someone in Thurrock Council overspent OUR MONEY and messed up and now we are paying for the consequences, it's not OK!
