## Comment text:

**Related subject:** Little Thurrock

Grays was once a lovely vibrant town not now unfortunately. I have lived in Grays all my life ie 57 years. Thurrock Council are reckless and have mismanaged funds and the people concerned should be held accountable for this crime. I recently visited Grays for the first time in 5 years and could not believe the state of it. I recognise that Lakeside has impacted on this. It was an exercise that will not be repeated. The State Cinema is another issue for a lot of Grays residents and the Council have only now stepped in to ensure works are carried out on the roof to save more damage. This is an accident waiting to happen as I'm sure mysteriously it will catch fire and lo behold flats will appear there. More houses or flats to add to the traffic problems already suffered by many of us. The Dartford Bridge gridlocks the whole of Grays if there is an incident. The infrastructure is not in place to support the amount of houses that have been built. I am not intending to stay in Grays as when I retire I will move away but feel for my home town and what it has become.
