Local roads are in a dire state and the town centre is a no go area these days. There's nothing to entice you to the shopping area as it feels unsafe with loitering kids and all you get is abuse from those that do not contribute towards paying for local amenities. The roads traffic on lodge lane is increasing, making noise and general pollution unacceptable. There is no where local for working individuals of lone females to go trekking etc. bus services are non existent on lodge lane. Lived my entire live in this borough and it feels we have taken a huge step backwards unfortunately. If seems to me having more boundaries simple increases the red tape and inconsistency with communication and stability of services.
