## Comment text:

**Related subject:** Huddersfield South

I find these proposals absolutely bizarre. You are splitting our village of Netherton in half. You are separating South Crosland Junior School from South Crosland. Netherton and South Crosland have always been a joint entity, as well as splitting Netherton, you have split Netherton and South Crosland. We have a strong feeling of community and these ward boundaries split that. It's nonsensical. It would make so much more sense to keep our village together and if anything join us with Honley or Meltham - both villages that people from our village spend time in to socialise, use shops and work.
