**Organisation Name:** (Member of the public)

## Comment text:

**Related subject:** Netherton, new area Huddersfield South

I believe Netherton should belong with Holme Valley North. Many folks here align more with Honley and Holmfirth. Also Netherton is a rural area surrounded by green space the same as Honley and Holmfirth. We don't really have any similarities to Lockwood or Berry Brow. To be in place called Huddersfield South would bear no recognition to where we live. Netherton may have a Huddersfield postcode but has no affinity or similarity with Huddersfield. I feel the above issues would lead to us being subject to decisions skewed to a more urban area with little relevance or emphasis on our way of life and locality. Holme Valley North is much more aligned with Netherton, and the boundary line is along a road associated with Netherton.
