Related subject: Holme Valley

I cannot believe you would even consider splitting the village of Netherthong into two. Netherthong has always been a part of Holme Valley South. The facilities used by the village are in Holmfirth not Honley. We will end up with councillors who don't care about part of a village that falls into their area. What a waste of money moving the border is. The amount of house building going on surely will level up the numbers.
