Related subject: Huddersfield South

The village of Netherton should not be included in Huddersfield South as we have no affinity with the rest of the area. It would be much better to use the river Holme as the boundary for Huddersfield South and for Netherton village to be included either in Holme Valley North or Huddersfield West. The river is a natural boundary. We also have ties with the parish as the Netherton church is in South Crossland and the Netherton School (A church school) is in the Netherton Village.
