Dewsbury south ward

Thornhill breistfield, Whitley lower and Thornhill lees have historically been connected When Dewsbury didn't exist and was a deer park belonging to the Lord of the manor. Thornhill was having a market on Wednesdays. I would like to see the railway line been the boundary and ravenstorpe not included. keeping the existing boundary's of Whitley and Breistfield as they are now. This then will future proof the ward for when the new housing estate with thousands of new voters is built on fields in Thornhill lees. I believe this would give a better representation of the ward and also going towards future proofing the ward as reviews like this don't come round often. I totally agree Savile town shouldn't be in the Dewsbury south ward and be in the dewsbury west ward with the railway line been the boundary as it was in the past. And could we call Dewsbury south ward The Thornhill ward as it was in the past a place we identify as.!
