Related subject: Proposed Huddersfield South ward

Instead of the proposal to separate only Netherton from the existing Crosland Moor Ward, community interests and links would be better served by including all the Parish of South Crosland in the Huddersfield South ward. This comprises Netherton, South Crosland and that small part of the parish in the Beaumont Park area. This would retain community cohesion . The South Crosland Parish does not have strong links with much of the existing ward. Netherton is the centre for gp services, junior school etc. This would not imbalance population sizes in the new wards.
