Related subject: Kirkburton Ward

I think it is a very good idea to 'share' the number of voters into the different wards to make them as near similar in numbers as possible. Of course, it can't be a permanent thing because people die and others grow and become 18 years old! It seems fairer though to have similar numbers in each. I am particularly pleased that Whitley, for the church and also where I live, are hopefully being included in Kirkburton Ward. Well done to everyone who has worked on preparing this.
