Comment text:

Related subject: Whitley Lower - Kirkburton

It doesn't make sense to have Whitley Lower as part of the Kirkburton ward. Even if our villages are of similar character it does not mean that Kirkburton's political views work with ours. They aren't near us geographically making them not part of our community. As a village with no amenities now the pub has closed we will use Mirfield or Thornhill for services and needs of the community. As we are already on the border of Mirfield I think it makes more sense to join a ward like this as our political views and services will impact us based on the services/areas we are in and are actually using. Being part of Kirkburton means they are having a say in our community, community services and how we run without being part of our community.
