## Comment text:

**Related subject:** Heckmondwike

I agree with the changes which now puts the Stublely estate (part of Heckmondwike) within the Heckmondwike ward. The Stublely Estate is part of Heckmondwike and should be represented as such (I would go further and suggest the Barley Fields also be added into the ward.

I also agree with the tidying up of the boundary along White Lee Road. It's much tidier and again is representative of the area. This tidy up should also include shifting the Muffit Lane into the Liversedge and Gomersal ward.

The Heckmondwike ward includes areas of Liversedge including Millbridge and the Flush as well as the whole village of Norristhorpe. Therefore, I would suggest calling the ward 'Heckmondwike and Norristhorpe' as this is more representative of the area.

The ward also seems to have some inconsistencies to the east (Kilpin Hill Lane and Bower Lane) Bower Lane falls within the Heckmondwike ward but is effectively cut off.

In an ideal scenario, Heckmondwike would be its own ward as it has a history of being independent, therefore I'd suggest reuniting Norristhorpe (and Millbridge and The Flush) with the Liversedge ward, and separating Liversedge from Gomersal (possibly putting Gomersal with Cleckheaton which have closer ties).
