Related subject: Styvechale Grange

I understand that it is proposed to transfer Styvechale Grange out of Wainbody and into Earlsdon. I only heard of this proposal recently, and third hand, as it appears that nobody in Styvechale Grange has been consulted on the proposal.

I wish to register my objection for the following reasons:-

- 1 Lack of consultation
 - 2 The area has no affinity with Earlsdon. There are no bus links to Earlsdon.
 - 3 The area has always been more closely tied to Styvechale and Finham. The bus route runs to these areas and this is where all the local facilities, shops, library etc are located.
 - 4 Earlsdon is an inner City ward with different problems to Styvechale Grange. Earlsdon has a very different demographic makeup with large numbers of students and other transients. Whilst ward councillors may do a good job for Earlsdon residents I firmly believe that they would not satisfactorily represent the residents of Styvechale Grange, whether that be through ignorance, disinterest or political persuasion in the same way that we have always been ill-served by local MPs. The present ward councillors do a wonderful job for residents as they know the area, identify with the residents and understand our needs.
- Please rethink this ill-considered proposal.
