**Related subject:** Westwood

I disagree with the proposed changes to Westwood ward. The proposed Tile Hill and Canley ward has an odd split of the old Westwood ward, and it would make much more sense to have a split at Westwood Way, and include the historical area of Westwood rather than transfer this to Wainbody ward. The upper half of Westwood ward (Westwood Heath Road) has much more in common with Tile Hill than is discussed in the LGBCE report, which focuses on the difference between the lower end of Canley and Westwood Heath. Tile Hill and Westwood share many amenities, such as doctors surgeries for instance, as well as woodland on the borders of the wards. Many of the local groups are split around the current ward boundaries, including the Westwood Heath Residents Association, and changing these boundaries will only add to the confusion that already exists with Warwick Council and Solihull Council areas bordering the area.
