Related subject: HOLBROOKS

Your proposals generally seem to go with the grain of the Holbrooks I know I have lived here all my life. The one decisions that stands out as being wrong for me is moving Yelverton Road into Radford.

It runs from Holbrook Lane to Burnaby Road two roads which essentially mark the edge of Holbrook ward so it would be a strange fit to make it a different ward. Also i understand the road is in the catchment area for Holbrooks school who's very name marks it as part of the heritage of the ward.

Whilst i realise you are involved in a numbers game you are also im sure concerned with maintaining the heritage and history of the areas you look at. People in Yelverton clearly do think of them selves as Holbrooks residents and work in some of the historic factories based in the ward. So i hope you'll reconsider and that keeping this in Holbrooks will not distort your figures to a significant degree
