## Comment text:

**Related subject:** Wainbody Ward

See details attached.

I disagree with the proposed merge with Earlsdon. The reason why is that we in Styvechale Grange have had no association with Earlsdon. We have not been consulted as Styvechale Grange. Any residents who live in areas known as Styvechale or Stivichall are not associated with our area.

## Attached Documents:

[REDACTED]

Styvechale Grange residents have **not been informed** of this consultation. As a member of Styvechale Grange Residents Association it was brought to our attention at our meeting in November.

As a resident of Styvechale Grange for over 50 years I feel that the area has been miss represented as Styvechale/Stivichall with comments being made by peoples outside of our specific area.

We have little affinity with Earlsdon or Cheylesmore as Styvechale Grange housing and people have lived here no earlier than the first part of 1960's. Our housing and amenities are different from Earlsdon or Cheylesmore, we are more related to the building and amenities associated with Finham, Green Lane, Gibbet Hill, and Cannon Park. Our local school Grange Farm and Stivichall school provide pupils to Finham Park Senior school on the other side of the A45.

I do not support the proposed boundary and reject the boundary change moving us into the Earlsdon ward as we have no connection with the area or their representatives.

I would support the proposal by Coventry City Council and all political parties to retain Styvechale Grange in the Wainbody ward. Our location is closer to the East of Leamington Road leading to Finham and Green Lane. We have an affinity and a strong community identity with Finham when they had a resident's association as we do (Styvechale Grange Residents Association) and as the Finham Parish council. We are actively participating with Finham Parish in relation to Finham Library who support our area.

The proposal to use the A45 as a boundary is inappropriate and should be to the Kenilworth Road, Memorial Park up to the A45. This will enable Earlsdon and Canley to remain in their current wards.

Westward Heath has a direct link with Canley and Tile Hill and the numbers of electorate when combine would be appropriate. Retaining Styvechale Grange, Finham, Cannon Park and Gibbet Hill would meet the requirements of LGBC.

The data provided by LGBC will not enable me to identify population by area only by proposed wards. If this were available other suitable combinations of districts would be available to calculate population group sizes and acceptable wards.

Regards
