**Related subject:** Coventry new ward boundaries

I am extremely disappointed that the latest proposals recommend transferring Styvechale Grange from Wainbody ward to Earlsdon ward. Our current 3 Councillors are visible, diligent and serve our community well, joining in litter picks to name just one example. I am given to understand that local residents currently within the Earlsdon boundary have never seen their local councillors. Perhaps the demands of it's busy shopping street take their attention more readily. This is a large residential estate with much more in common with the rest of Wainbody ward. We have a strong community identity which we would be keen to protect with our current councillors. Pupils from our local primary school would in the main transfer to Finham Park secondary school which is in Wainbody ward. And i do wonder if the resident numbers being used in this exercise are accurate considering the large numbers of transient university students we have locally.
