## Comment text:

**Related subject:** Pallion Ward

I want everything to stay the same, as we are finally getting things done in this part of ford estate, Blackie Park has suffered over the years while St Annes has received the lions share of funding. They have been modernised twice in 15 years or so, low pennywell and top ford once in thirty years. A change of boiler here and there. Boundary changes will only mean things get worse for Top ford as the chasm between top and low ford gets wider. As we will get forgotten about in the funding stakes yet again! No mans land springs to mind!
