Related subject: The area in Washington newly designated “Barmston and Sulgrave”

The new area proposed to be named Barmston and Sulgrave also encompasses all of Columbia yet it is not mentioned at all in the name. We have effectively been wiped off the map!!!!!! Columbia is nowhere near Sulgrave and has nothing in common with Sulgrave. Just look at the ridiculous shape of the proposed new ward. In who's world does this arrangement make sense? Columbia borders the village and Biddick it makes more sense to be put in with those areas where we share similar issues.
